## SUMMARY

A data science and artificial intelligence graduate from the College of Computer Science and Information Technology, King Saud University. Passionate about business and technology, I have developed my programming and analysis skills through freelancing.

## WORK EXPERIENCE

### Data analysis and BI internship

May 2020 - Feb 2020

Lean Node

📍 Riyadh, Saudi Arabia

I worked with a professional team in business development and technical consulting.

- Built a **real-time dashboard** with the latest technologies.
- Assessed trends in product **marketing** to develop effective and competitive strategies to increased the company's market share and visibility.
- Recommended change to operations based on the assessment of **business intelligence** information.

### AI internship

Jan 2020 - May 2020

Smarts Methods

📍 Riyadh, Saudi Arabia

I worked with a group of engineers specialized in electrical engineering, mechanical design and control systems.

I perform ten tasks in all engineering tracks:

- programmed **Python** code for face recognition and smile detection using **OpenCV**.
- Design a control system for two stepper motor type using **Arduino**.
- **Redesigned** robot body for hospital.

### Web Developer

Dec 2018 - Nov 2020

8Divi

📍 Riyadh, Saudi Arabia

I have experience planning and delivering web applications across multiple platforms.

- Created a web app using **Nodejs**.
- Created a websites using standard **HTML/CSS/JavaScript** practices and **php**.
- Worked closely with web designers and programmers to produce websites.
- Team management with Agile **Scrum** methodology

### Startup business

Jan 2018 - Jan 2020

King Salman Entrepreneurship Institute

📍 Riyadh, Saudi Arabia

Mobile phone maintenance service using golf carts for transportation on campus. It was incubated by the King Salman Institute for entrepreneurship.

I worked on:

- feasibility study.
- work plan.
- operational plan.
- MVP.
- presented the project to investors.

## EDUCATION

### Data Science and Artificial Intelligence

Jan 2016 - Dec 2020

King Saud University

📍 Riyadh, Saudi Arabia

### Full Stack Engineer

May 2020 - Aug 2020

Mechanics and Artificial Intelligence Organization

📍 Riyadh, Saudi Arabia
